WHO WE ARE

L&N Technologies (LN) is a licensed electrical (LV) /design build contractor specializing in low voltage systems. Serving the Washington D.C. and Baltimore Metro areas, our methods are accomplished through collaboration with I.T., architectural / engineering, and electrical sector partners with whom we have built *strong ties*.

LN's core offerings include: ***Cabling, audio-visual (AV), access control, and video surveillance services, electrical (low voltage) design/ engineering/Integration, and ICS building infrastructure cybersecurity***

LN prides itself on our *industry certified and licensed* personnel that understand both the installation and conceptual design of our solutions. Bringing both the design and physical installation under one umbrella is a key differentiator of LN.

WHAT WE DO

STRUCTURED / OSP CABLING (FIBER OPTIC AND COPPER)	ACCESS CONTROL, VIDEO, SURVEILLANCE & INTRUSION SYSTEMS
LOW VOLTAGE DESIGN & ARCHITECTURAL / ENGINEERING CONSULTING	AUDIO VISUAL SYSTEM DESIGN & INTEGRATION
